

Tips for Winter Touring

What does winter mean to you? Frosty walks? Snowy adventures? Warm log fires? Getting away in a camper van or motorhome lets you make the most of the short days and cold nights, with a little preparation first.

Whether you choose the larger motorhome with built-in heating, hot water, oven and shower, or the compact and cosy VW camper with lots of bedding and a simple stove, you can be sure of a great winter adventure.

Read our 7 Top Tips for winter touring below...

Top Tips for Winter Touring:

1. Are you looking for winter sun or snow? City break or hills? Pick your ideal destination and places to see en-route.
2. Choose a cosy easy-to-drive camper or larger, more luxurious motorhome, with room for everyone's clothes, boots etc.
3. Hire at great low-season rates, leaving money for luxurious extras like mulled wine and mince pies!
4. For a cosy night's sleep, stay on a site with 240V hook up (or at a Britstops pub with log fire!). There are over 700 open-all-year sites at searchforsites.co.uk.
5. Take bikes or boots and waterproofs for active days out (and lots of thin layers for warmth)
6. Empty waste water before bed (to stop it freezing overnight)
7. Take a camera for some beautiful wintery shots at dawn / dusk and relax!

What is included from Northallerton Motorhome Hire?

For enjoying winter **inside**:

- Fleecy blankets and warm bedding
- Hot drink hamper and chocolates
- Cooker, sink and fridge
- Gas bottle with spare
- Kettles & fan heater
- TV/DVD for quiet nights in

For time **outside**:

- Cycle rack to take 4 bikes away (optional extra with the camper)

When you hire from us you get a full handover, Hirer's Handbook and 24-7 helpline. For any help or advice, please get in touch. Thanks,

Mark Lawn
